

CHILDREN, YOUTH & FAMILIES

OUR CLIENTS DRIVE REAL-WORLD CHANGE.
WE ACCELERATE IT.

OUR COMPANY

Bizzell US (Bizzell) is a U.S. Small Business Administration (SBA) HUBZone-certified, minority-owned consulting, strategy, investment and consulting firm that delivers innovative solutions to help build healthy, secure, connected and sustainable communities in our nation and around the world. We leverage the combined experiences of our diverse subject matter experts to develop data-driven, research-informed technology responses to the world's most complex challenges.

OUR CAPABILITIES

Advocacy and Policy Change: Bizzell is a strong advocate for policies and practices that benefit children, youth and families. We engage in advocacy efforts at the local, state, national and international levels to promote the welfare of young people and ensure their voices are heard. Through policy work, community engagement and collaboration with other organizations, we strive to create systemic changes that lead to a better future for all children and families.

Community Collaboration and Partnerships: Bizzell believes in the power of collaboration and actively seeks partnerships with businesses, government agencies and other organizations. These collaborations allow us to expand our reach, leverage resources and create more impactful programs. By working together, we can address the complex needs of children, youth and families more effectively and build stronger, more resilient communities.

Comprehensive Support Programs: Bizzell offers a wide range of programs designed to support the physical, emotional and intellectual development of children and youth. These include life skills training, mentoring and tutoring services, sports and arts initiatives, and supporting after-school programs. Each program is tailored to meet the diverse needs of young people in our communities, fostering environments where they can thrive and succeed.

Educational Advancement and Career Readiness: Bizzell is dedicated to supporting the educational journey of children and youth from early childhood through post-secondary education. Our programs include career readiness programs, college preparation services, early literacy initiatives and STEM education. We work closely with schools, families and community partners to ensure that young people are equipped with the knowledge and skills necessary for academic success and future employment.

Family Engagement and Support Services: Bizzell recognizes the crucial role of families in the lives of children and youth. We provide holistic family support services. This encompasses family counseling, parenting workshops and support groups that aim to strengthen family bonds and improve communication. Our services are designed to support families through various challenges, ensuring they have the resources and knowledge needed to create nurturing environments for their children.

Health and Wellness Initiatives: Bizzell is committed to the health and well-being of children, youth and their families. We offer access to nutritional programs, physical and mental health services, and wellness activities that promote healthy lifestyles. Our initiatives are aimed at preventing health issues and ensuring that young people and their families have access to the care and information they need to lead healthy lives.

OUR SUCCESS STORIES

Health Resources and Services Administration (HRSA), Enhancing HIV Care of Women, Infants, Children and Youth, Building Capacity Through Communities of Practice (CoP) Project

Bizzell supports the Division of Community HIV/AIDS Programs (DCHAP) by providing foundational, targeted and intensive technical assistance services, including three yearlong programs through CoP for Ryan White Part D recipients. The CoP focus on preconception counseling that includes behavioral health, sexual health, trauma-informed care and youth transitioning into adult Ryan White HIV/AIDS programs. We manage three virtual CoP, conduct needs assessments of the CoP participants, develop and share resource materials to enhance workflows and services to the populations served, conduct interactive learning sessions, guide participants through quality improvement projects and provide leadership sessions with each recipient to ensure the enhancement of services to women, infants, children and youth enrolled in Ryan White Part D programs.

HRSA, Maternal Child Health Bureau (MCHB), Sickle Cell Disease (SCD) Newborn Screening Follow-up Program (NSFP) Technical Assistance (TA) Project

Bizzell collaborates with the Health Resources and Services Administration (HRSA) Maternal and Child Health Bureau (MCHB) to enhance health outcomes for individuals living with sickle cell disease (SCD). This partnership focuses on developing statewide and regional networks of SCD support services and utilizing the specialized knowledge of community-based organizations and community health workers. By providing financial and organizational technical assistance, we aim to improve grant administration and program monitoring. Our efforts are directed towards enhancing the capabilities of grantees, enabling them to effectively implement crucial programs and services that support families affected by SCD. Through these comprehensive measures, Bizzell plays a pivotal role in fostering a robust support system for the SCD community.

Innovating Child Care Solutions: Bizzell's Strategic Support to the Office of Child Care (OCC)

Bizzell's work with the OCC under the Administration for Children and Families (ACF) showcases our innovative solutions amid budget constraints and the critical need for quality Early Care and Education (ECE) for low-income children. Using the Child Care Communications Management Center (CMC), we enhanced the dissemination of key policies and information to childcare stakeholders, providing comprehensive technical assistance (TA) and communications support to facilitate affordable and quality child care across Native American tribal institutions, states, and territories. Through the CMC, we mobilized logistical, communication, and technical services for conferences, roundtables, and webinars, including developing training materials, direct vendor billing, event planning, and streamlining operations for effective stakeholder engagement. Adopting web-based technologies for meetings and training sessions enabled broader participation despite geographical and budgetary constraints. Our success with the OCC underscores our commitment to impactful ECE programs, navigating challenges, and reinforcing the foundation for accessible, high-quality child care services.

Enhancing Maternal and Child Health Bureau (MCHB): Bizzell's Innovative Solutions for HRSA's Research to Practice Initiatives

Bizzell's collaboration with HRSA through the Coordinating Center for Research to Practice Partnerships (CC-R2PP) initiative demonstrates our innovative approach to linking research with real-world applications within the MCHB. We focused on strengthening connections between academic research and public health implementation through Research Networks (RN) and Special Interest Interdisciplinary Projects (SIIPs) to enhance maternal and child health outcomes. By facilitating collaboration, promoting research dissemination, and enhancing the capacities of RN/SIIPs alongside MCHB divisions, we conducted comprehensive needs assessments, identified opportunities for cooperation, and managed a Virtual Learning Collaborative (VLC) for shared learning among stakeholders. A key highlight is the development and management of a Moodle-based Virtual Learning Platform, serving as a hub for cooperative learning and research dissemination, significantly aiding in translating research into impactful public health practices. Our comprehensive dissemination plan underscores our commitment to improving health outcomes for maternal and child populations by enhancing research-practice connections through strategic services and innovative solutions.
